Product Information

100% orthophosphate low-salt liquid fertilizer. Phosphorus in this form is immediately available to the plant. Under stressful conditions such as cold soil temperatures, the phosphorus is ready once the roots are able to take up nutrients.

Directions For Use

Use in accordance with recommendations of a qualified individual/institution. Do NOT mix with calcium-based fertilizers.

SOIL APPLICATION: Apply in-furrow, 2x2, or at side-dress or top-dress. Do NOT apply directly to the seed in saline, alkali, or coarse-textured soils. FOLIAR APPLICATION: Fill the spray tank with

water prior to adding fertilizer or other products. Use only as a supplement to a regular nutrient management program. Repeat applications may be beneficial. Use only as directed to avoid foliar burn. Do not apply when the crop is excessively stressed for moisture or during periods of high temperatures. The use of a surfactant may enhance leaf coverage and increase nutrient absorption.

PPE

Handlers and applicators should wear NIOSH-approved particulate or mist respirators if required. Safety glasses with side shields, goggles, or a face shield, long-sleeved shirts, rubber gloves, and local exhaust ventilation are recommended.

Product should be applied in the cool of the day in temperatures under 80 degrees F.
